Revised 9/8/2011
About Backdrops

◆ What is a backdrop
  □ Vertical surface picturing scene from very far away to immediately behind the horizontal railroad and scenery
  □ Add middle distance scenery
    ■ Nature (e.g., mountains) or man-made (e.g., urban)
◆ Why backdrops are important
  □ Adding a backdrop (background scenery) to your model railroad is one of the simplest and most effective ways to enhance its overall appearance
  □ The backdrop helps set the context in which the railroad operates
Backdrop Alternatives

- Alternative ways of making a backdrop
  - Ready-made or custom
  - Paint
  - Build-up using cut-out pictures
    - Focus of this clinic
    - Discuss others first
    - Ready-made can be incorporated as cut-outs
On-Line Backdrop Creation Ideas (1 of 3)

- Background skylines, structures, ads & more
  - [http://www.gatewaynmra.org/download.htm](http://www.gatewaynmra.org/download.htm)
    - Vintage Product Advertising Signs
    - Industrial and Warehouse Buildings
    - Building Interiors
    - Background and City Skylines
    - Riverfront Backgrounds

- Backdrop Painting Know-How

    - Procedure
On-Line Backdrop Creation Ideas (2 of 3)

◆ Tips for Painting Clouds
http://www.tttrains.com/tips/clouds.htm

□ Introduction
□ Creating Distance - a quick lesson on perspective
□ Supplies
□ Making Stencil

◆ Painting Backdrops with Ease
http://www.sierrascalemodels.com/Art_Paint.htm

□ The sky
□ Clouds -- cumulus, cirrus, and status
□ Fair weather, puffy little clouds
□ Sometimes clouds have rain in them

□ The paint
□ Force perspective
□ If you are not happy with your results, remember you can repaint the wall blue and start over

◆ Personal experience Painting Clouds

On-Line Backdrop Creation Ideas (3 of 3)

- Typical presentations on You Tube. Search for more.
  - [www.youtube.com/watch?v=MDwMkPebUGA](http://www.youtube.com/watch?v=MDwMkPebUGA)
    66 min - Amy Colburn, Professional Mural Artist, explains the components, or elements, that create a really outstanding backdrops.
  - [www.youtube.com/watch?v=nym45geDiz4](http://www.youtube.com/watch?v=nym45geDiz4)
    5 min - Hand painted backdrop for an O guage model train layout
  - [www.youtube.com/watch?v=wJGHBTvOG28](http://www.youtube.com/watch?v=wJGHBTvOG28)
    4 min - Fast and easy way to make a backdrop for model railroads, war scenes, dioramas.
  - [www.youtube.com/watch?v=7zoFs9HOsTE](http://www.youtube.com/watch?v=7zoFs9HOsTE)
    22 min - How to Make Backdrops for Model Trains
Commercial Urban Backdrops (1 of 2)

- Install out of the box as backdrop
  - Glue to Masonite, sheet styrene or other backdrop support
  - Can’t mix brands — each has own tone, color balance, size, style, sky color
- Walthers Instant Horizon Background Scenes

- Detail Associates
Commercial Urban Backdrops (2 of 2)

- Backdrop murals canvas for model railroad layouts
  [http://www.backdropwarehouse.com/indexbdwh.htm](http://www.backdropwarehouse.com/indexbdwh.htm)  
  [http://www.backdrops4models.com/indexbd4m.htm](http://www.backdrops4models.com/indexbd4m.htm)  
  They sell Cut Out Kits printed on an adhesive vinyl paper with a matte finish. Also do custom orders.

Others — search on “model railroad backdrop”
Using Individual Buildings  (1 of 2)

◆ Cut building out of commercial backdrops
  □ Cut out using straight edge and sharp hobby knife
  □ Need to eliminate all sky because it will be wrong color
  □ Scan the picture for duplicate or different size

◆ Use prepared cardstock cut-out buildings as low-profile or flats
  □ Check out http://www.cardmodelers.org/
  □ Free files for you to print (try searching for more)
    ■ http://www.gatewaynmra.org/download.htm#backgrounds
    ■ Actual historic buildings associated with Abraham Lincoln & Illinois main street
      http://www.illinoishistory.gov/ps/construct_mainstreet.htm
    ■ Free paper models of buildings from around the world
      http://www.ss42.com/pt-buildings.html
Using Individual Buildings (2 of 2)

- Cardstock cut-out buildings for sale
  - Preprinted
    - Kingmill Radical Flats backdrop buildings are digitally printed on high quality 11 x 17 inch, 80 lb. cover stock
      http://www.kingmill.com
    - Qaz
    - Wsx
  - Download & print yourself (sometimes a freebie)

    - http://www.erichotz.com/whitewash.html (wild west)
  - Software design program
    - Modelbuilder — create custom buildings & print
      http://www.modeltrainsoftware.com
Painting Backdrop

- **Sky** – needed whether you paint or paste buildings
  - Sky is darker overhead and lighter at horizon
  - Use two shades or tints of blue paint. Blend where they meet to get third shade
  - Clouds
- **Pictures of clouds**
  [http://www.freefoto.com/browse/?query=clouds](http://www.freefoto.com/browse/?query=clouds)
- **Make stencils for the clouds out of cardboard**
  - The "wisps" (A) turned out to not be a good idea when the stencils were used repeatedly
  - Decrease cloud size from top to bottom of backdrop
  - Use paint sparingly
More Cloud Tips

- Change stencils often
- Never spray near the outside edge
- Change position of stencils between blasts of paint: clouds will appear 3-D with the different layers of paint
- For the tops of clouds- hold the stencil 1/2 inch away from wall, giving a sharp edge
- For the bottoms of the clouds- hold stencil 1-2 inches away from backdrop, giving a soft fuzzy edge
- Overlay stencils to achieve shape/size variations
- Begin with the small horizon clouds: these multiple horizon clouds will receive overspray from the clouds above them, thereby creating atmospheric haze
- For storm clouds (below), spray gray paint first and then over spray with white to the desired density.
Pictures from Internet Resources

- My personal collection

More Pictures From the Internet

◆ Search for Backdrop Pictures
  □ Image search engines
    ■ List of list of major well known photo-sharing websites @ Wikipedia
    ■ Google images
      http://images.google.com
    ■ Yahoo image search
      http://images.search.yahoo.com/
    ■ Flickr pictures
      http://www.flickr.com/
    ■ Pic search
      http://www.picsearch.com/
  □ Regular search engines
    ■ Search for specific images (e.g., firehouse picture)
    ■ Use “picture,” “photo,” or “image” as search term
Great Idea for Pictures From the Internet

- Register on auction sites (such as eBay [http://www.ebay.com/](http://www.ebay.com/))
  - Postcards, photos, pictures
  - Many auction items contain pictures
  - Search for your interest (e.g., Pittsburgh)
  - Save search so that “hits” are emailed to you
    - Search: pittsburgh –pirates –steelers
    - Click on: Add to Favorites
    - Check box: Email me daily whenever there are new items for 12 months
- Typical Ebay email extract

![Typical Ebay email extract](image-url)
Using a Picture from the Internet

- Select the largest image available
  - Right click on picture
  - Select “save picture as” or “save image as”
  - Save as type “jpeg”
  - Save in dedicated directory that you’ll remember
Crop & Resize Pictures

- You need a tool (application) that will crop & resize the picture
  - Powerpoint will work
  - Most photo programs will work
  - For Windows I recommend a free program “Irfan View”
  - iPhoto, which ships free on every Mac, will handle the image editing
- Crop the picture to select the item you want
Perspective

- Try to keep a roughly consistent perspective on all the buildings
  - Not good to be looking down on some and head-on to others
  - Select pictures with consistent viewpoint

- Where is the sun?
  - Beware of inconsistent shadows
  - Try to choose pictures without shadows
  - Flip building pictures horizontally to get all shadows on same side

- The two pictures below are inconsistent in position of sun
Sharpness, Resolution & Printing

- Distance makes object look fuzzy & obscures details
  - Air pollution also makes them look dull
  - Use software to reduce brightness, contrast, and color saturation

- Resolution suitable for web pages is good enough for backdrop
  - 100 dpi (dots per inch)

- Print on heavy non-glossy paper
  - Such as Hammermill Cover Stock
  - 67 lb Vellum Bristol
  - Try using cream color to soften images
Touch-Up Pictures

- Pictures may not be exactly what you want
- Use photo touch-up programs
  - Skill gained from experience
- Example
  - Remove unwanted foreground detail
  - Cut & paste to fill in

- Some unwanted background can be cut away
Another Touchup Example

◆ Original

◆ Final
Perspective

- Creating illusion of distance — a quick lesson in perspective
  - Smaller objects appear further away
  - Overlapped objects appear behind
  - Objects in the distance have softer edges
  - Objects in the distance appear grayer
- Example: warehouses progressively smaller gives illusion of being further away
  - Add "hints" (these buildings are numbered 1 & 2)
More on Perspective

- Forced perspective
  - Blog: Handling 90 Degree Corners...my Trials and Tribulations with Forced Perspective [http://model-railroad-hobbyist.com/node/5114](http://model-railroad-hobbyist.com/node/5114)
  - Book: Building City Scenery: For Your Model Railroad (Model Railroader) by John Pryke

- Use scale to measure height of known object, such as door or distance between floors

- Reduce size to give illusion of distance
  - Close, foreground 100%
  - Near, 100-500 yards 90 – 100%
  - ¼-½ mile 80 – 90%
  - Miles 30 – 50%

- Detail in building further away always smaller than one in front of it (e.g., height of window)
Mock Up the Scene

- Attach cut outs to backdrop to see how they look
  - Use Post-it™ correction tape

- Take photo to guide you when you actually paste
  - You have to paste back-to front
  - Include some reference point
  - Example, building is in front of backdrop
Paste Buildings to Backdrop

◆ Grayscale print is good enough to use as guide

◆ “Paint” slightly dilute white glue to back of building
  □ Slide into place if necessary

◆ When glue is dry (overnight) spray with clear flat for protection
Standoff Spacers for 3D Appearance

- Gluing the picture onto a spacer that is cut to the same outline will provide a 3D illusion effect of depth (distance)
- Foamcore board is probably best and cheapest for this
- Multiple overlays will increase this effect, but you don’t want to get carried away
- Bigger ones in back, usually. This violates the forced perspective a bit
- You’ll get a little bit of shadow effect as well, depending on your lighting
