

# The BTR - "Trestle Table" – how it was made.

The stations of 'Tabletop' and 'Shenanigan's Wharf' are located on a waist height table.

Sketch of the trestle Bents.

The jig used to assemble the Bents.

Bents aligned on concrete pads, corbels and girders being installed.

## The BTR - "Trestle Table" – how it was made.

Treated Pine slats were laid on Girders.

Fibre cement sheet panels laid over slats, track and ballast laid onto painted sheets.

The BTR - "Trestle Table" – how it was made.
