

CONCORD MODEL RAILROAD CLUB

PO Box 61, CONCORD, NH 03302-0061

www.trainweb.org/cmrc

Thank you for your interest in the Concord Model Railroad Club. We hope that you enjoy your visit and our model display. Visitors are always welcome.

The Concord Model Railroad Club Inc. is a non-profit organization registered in the state of New Hampshire. It began in 1986 by a small group of people interested in sharing their knowledge and having a good time with trains.

The club meets every Thursday at 7 PM in room 302 on the third floor of the Washington Street School in Penacook, NH. The club entrance is on the end furthest from the gym. Parking is usually available in back on our end. Some Thursdays we meet at a club member's home layout. We participate in a number of public shows each year.

Our HO sectional layout consists of club owned modules, most are 6 feet long. Some of the modules conform to the regional standard allowing us to join our modules to other clubs. Our typical setup is a 34' x 40' combination of single and double mainline layout. We use Digital Command Control (DCC) to control our modular railroad.

Our club welcomes new members who would like to share their enjoyment of any phase of railroading, of any scale. If you are interested in joining our club, please come to one of our meetings to visit, or call one of the members below:

Gary Bowden
228-6259

Dave Sias
279-4553

Jonathan Miner
736-4946
