

PACIFIC LOCOMOTIVE ASSOCIATION, INC.

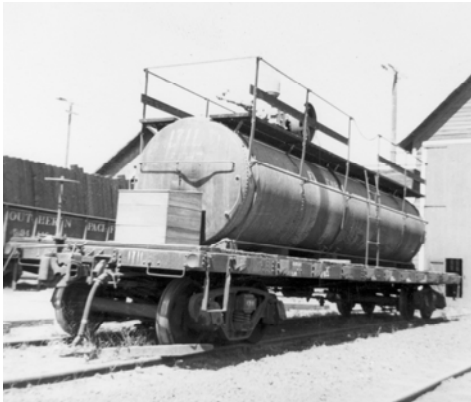

Requests Donations to Preserve McCloud Fire Water Tank Car #1711

Please help save one of the last pieces of equipment left from the McCloud River Railroad logging era. The acquisition of the car has been approved by the Board of Directors and \$3070 has currently been donated towards purchasing and moving the car to the Niles Canyon Railway. Another \$2000 in donations is estimated to be required to purchase, move and re-paint the car – please donate to help save this unique homebuilt tank car.

The McCloud Railroad Fire Water Tank Car #1711 was built in the McCloud car shops in 1941 to replace an earlier all wood fire train car.

PLA members may be familiar with this car because of its use during the excursion era as an auxiliary tender for long steam trips over the railroad, including use on several PLA charters. The car acquisition will add an additional water car to use for water storage in the Brightside yard. In addition, the car will be used as an auxiliary tender during photo charters and is an authentic logging fire car that fits with our collection of steam logging locomotives. The PLA is purchasing this car from the new owner of the McCloud Railroad and this is the last chance prevent this car from being scrapped. Please help preserve one of the last pieces of McCloud River Railroad freight equipment in existence.

Photographs on this flyer are Copyrighted by Jeff Moore and used with his permission. Top picture: The car photographed in McCloud by Jeff Moore, May 2007. Lower picture: The car as originally built sitting in front of the car shop in McCloud pre-1951, photographer unknown, Jeff Moore Collection.

The Pacific Locomotive Association, Inc. is all volunteer, tax-exempt, IRS 501(c) (3) non-profit corporations. Contributions are tax deductible to the full extent of the law. The PLA operates the Niles Canyon Railway Museum for the educational benefit of the public.
