

The North Central Texas All Scale model railroad group traces its beginning back to 2006 when Dallas, Garland & Mesquite Model Railroad Club members Roger Houser and Billy Roden decided to form a new "less formal but more active" club. Since Roger and Billy were modeling in different scales they decided the new group would be a non-scale specific organization.

Today, NCTAS continues to grow and our members operate model railroads in just about every scale and gauge imaginable.

NCTAS members meet at least monthly (usually the 3rd Saturday) at a member's home to work on each other's railroads but, mainly we just run trains. Most meetings are held in Lavon, Plano, or Wylie but, as our name implies, we welcome members from anywhere in the North Central Texas region.

If you would like to join us (there are no membership dues or requirements except a desire to play with trains) contact us by email (nctasrr@yahoo.com) and we will be happy to give you directions and information about our next meeting.
